

# MEZGER ENTERPRISES

Custom Cut Limestone

**M**ezger Enterprises is the largest limestone quarrier, full service supplier and limestone fabricator in the Southwest.

Providing architects, masons and builders with raw slab, architectural cut stone and custom designs for over 40 years, Mezger Enterprises consistently delivers high quality products and services on commercial, residential and landscaping applications.

Quarried from the Lueders Basin in West Texas, Mezger Enterprises quarries different types of limestone that can be custom cut and honed, including West Texas Cream, Texas Cream, Lueders limestone and shell stone.

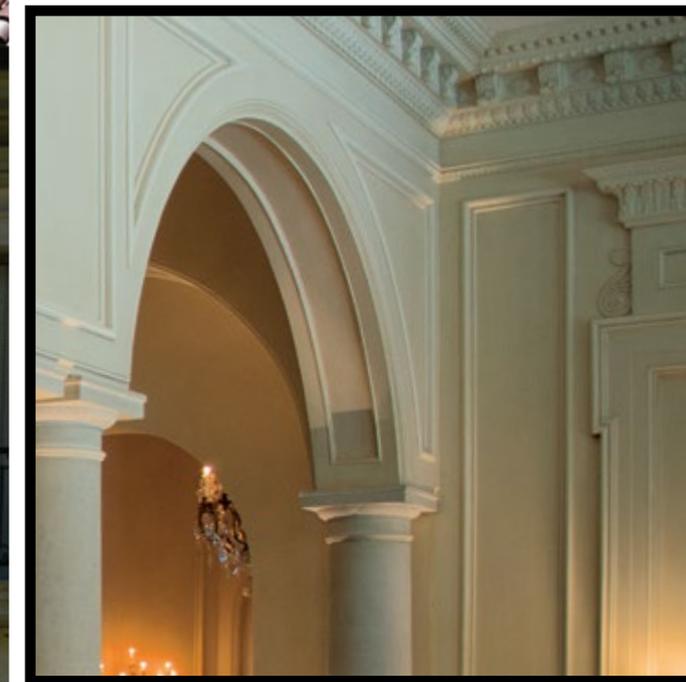

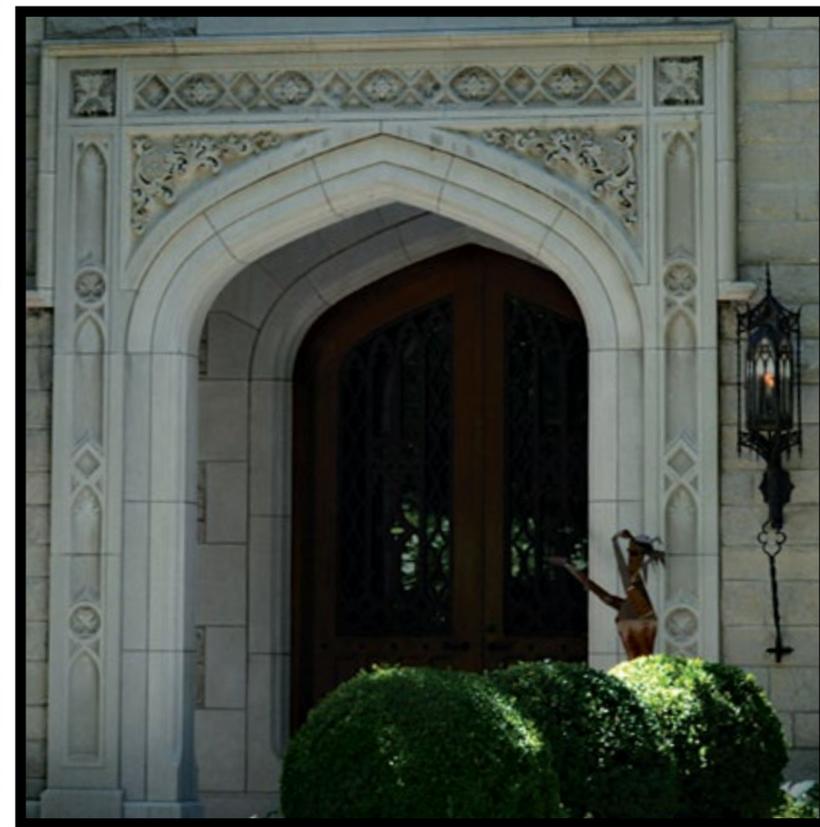

A full service custom cut limestone company, Mezger Enterprises offers an extensive inventory and a wide range of colors, grades and textures that can be shipped worldwide.

Family owned and operated since 1978, Mezger Enterprises built its foundation and reputation on providing unique, custom, quality products and reliable, exceptional customer service.

# RESIDENTIAL

Used for centuries for its durability, limestone is a natural choice to build your home. Limestone from Mezger Enterprises is a warm neutral color that develops a patina and improves in appearance throughout the years. Limestone is an all-natural material that takes any project from ordinary to extraordinary.

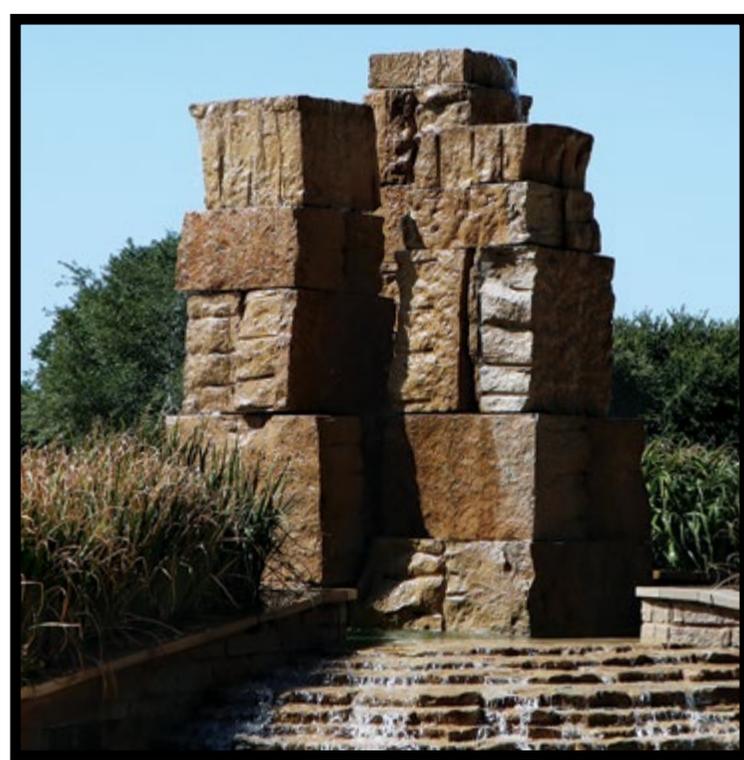

*“Mezger Enterprises has been a trusted partner of Dee Brown Masonry for more than 20 years. We have successfully partnered on numerous residential, commercial, institutional and landscape projects.”*

## COMMERCIAL / INSTITUTIONAL

Limestone supplied by Mezger Enterprises is the only option when building structures expected to stand the test of time. Many colleges, hospitals and institutions around the country use limestone from Mezger Enterprises as their material of choice. Strong and dense with few pores means limestone can withstand environmental elements for generations.

*“For years they’ve consistently provided us with the highest quality stone products.”*

# LANDSCAPING

Mezger Enterprises offers limestone that adds interest and dimension to landscape designs including waterfalls, paving, pool coping, entries, signs, monuments and more. Limestone is a durable, unique and organic material ideal for rugged applications.

*“I’ve had the pleasure of working with Mezger Enterprises on a number of projects. I’m continually awe-struck by their attention to detail, quality of workmanship and knowledge. They are my first contact for any design with stone.”*

Kimley-Horn

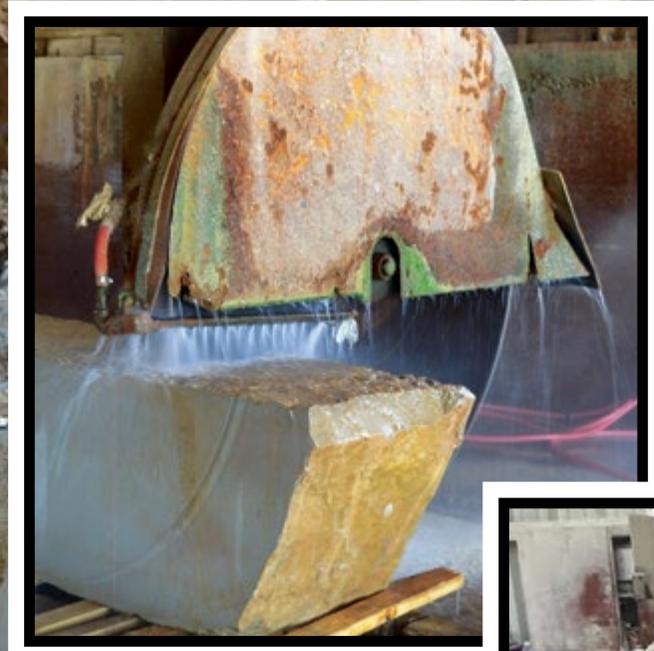

# PROCESS

The blocks are extracted and customized to meet each fabricator's requirements whether it is drilled to size quarry blocks, or custom sawn mill blocks.

The stone is shipped to your job site, cut to fit and ready to set, eliminating the need for cutting on the job.

Mezger Enterprises owns and operates four quarries and more than 1,000 acres in Lueders, Texas.
